

Erratum

Paryzek, Z.; Koenig, H.; Tabaczka, B. *Synthesis* **2003**, 2023-2026

After publication of the above paper it was pointed out to us by Dr Prakash Rao (Dept. Chemistry, Pondicherry University, Pondicherry – 605-014, India) that some 9 years earlier he and his colleague had disclosed their findings on the utility of ammonium formate/Pd-C for the reduction of carbon-carbon double bonds in bicyclic α,β -unsaturated ketones. No reference to their earlier work was present in the paper published by Paryzek et al. The complete reference for the earlier work by Dr. Prakash Rao is:

Prakash Rao, H. S.; Subba Reddy K. *Tetrahedron Lett.* **1984**, 171–174.

The authors apologize for the omission.
