Supporting Information for

Novel Concise Synthesis of (±)-Noviose and L-(+)-Noviose by Palladium-Catalyzed Epoxide Opening Reaction

Yoshitaka Matsushima* and Jun Kino

Department of Chemistry, Hamamatsu University School of Medicine, Handayama, Hamamatsu 431-3192, Japan
e-mail: ymatsu@hama-med.ac.jp

Contents

1. Copies of $^1$H and $^{13}$C NMR Spectra S2
compound 8
compound (±)-7a
compound (±)-6a
(E)-5-hydroxy-4-methoxy-5-methyl-2-hexenoic acid
compound (±)-5
(±)-Noviose (1)

(a) immediately after preparation

(b) after complete equilibrium
(+)-Noviose (1)
compound (–)-7b
compound (−)-6a
