ULTRAZVUK U MEDICINI

ELIT MEDICA

Manual written by Atanasije Tasa Marković, the headmaster of the Yugoslavian School of Ultrasound – 1997.

Kurjak in Dubrovnik. Since the majority of the students and doctors were from Yugoslavia, Dr. Zoran Sretenović, decided to open another, this time a Yugoslavian School of Ultrasound in 1985.

The Yugoslavian School for the Application of Ultrasound was offering various pro-

grams for all specialties and levels. It was established in Kragujevac and as the head doc. Dr Atanasije Tasa Marković was appointed.

Due to the political situation and events, the Yugoslavian School for the Application of Ultrasound was closed in early 2000.

Nevertheless, the Yugoslavian School for the Application of Ultrasound fostered numerous professionals, who carried their work in all parts of the world and was the first of its kind.

The main communication channel currently is our Newsletter, but in the future, we are going to publish a magazine. The main focus of the magazine will be promoting the guidelines of EFSUMB, besides our practical experiences and new accomplishments in the field of Ultrasound.

Training in ultrasound in Serbia

During their medical studies, students have the opportunity to learn basic practical knowledge regarding ultrasound. Further on if they wish to continue their education in the Application of ultrasound, there are various courses and internships at University Clinics, that are all approved for SECHO.

National Meetings in Serbia

The national meeting is held once every two years, at the moment.

Membership

SECHO currently gathers 50 official members and 30 associates. All of our official members are part of EFSUMB as well.

SECHO and EFSUMB

Since 2020, SECHO is part of EFSUMB. We are looking forward to future cooperation.
