

Erratum

There was an error in the article by Chun-Ying Xue *and others*, Identification and quantification of the Traditional Chinese Medicinal Plant *Gentiana macrophylla* using Taqman Real-time PCR, on pages 1842–1845 of issue 74(15) of *Planta Medica*. The figure 2 should be as follows:

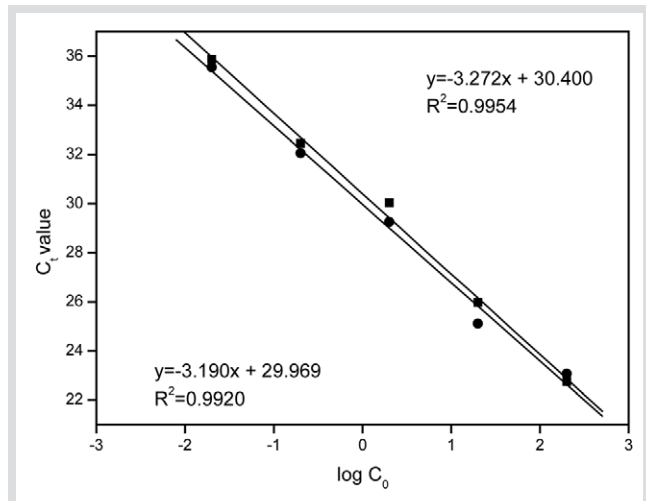

Fig. 2 Linearity test with degraded DNA as template: QJ (■) and 5.8S (●) specific TaqMan systems belong to the *G. macrophylla* specific quantification method using DNA from *G. macrophylla*. C_t values are plotted versus the logarithm of the DNA concentration. Voucher specimens are housed in KUN and HNWP.
