

March 2013

The HSUMB Board Decisions

The **EUROSON 2015** date has been finalized to **November 6–8 2015**, in Athens. A **EUROSON SCHOOL** has been proposed for 2014 on Elastography, USCA, 3D / 4D US.

Participation of the HSUMB in the BIO-NIAN Cluster, a Life Sciences Biotechnology Cluster in South Eastern Europe. The Cluster includes University labs, Hospitals, Health Care and Pharmaceutical companies in the perspective of the “Knowledge based bio-economy towards 2020”. The topic that HSUMB has undertaken is the integration of Elastography in the diagnostic and therapeutic assessment of the Liver, Prostate, Thyroid and Ovaries.
