

EUROSON 2015

Dear friends and colleagues,

We cordially invite you in EUROSON 2015, which is to be held in Athens from 6 to 8 November. As you have already seen at the EUROSON 2015 newsletter, at an earlier page of this issue there is an official site www.euroson2015.org with every useful detail: scientific and educational programme, workshops, industry sessions. Registrations are open to the participants, lecturers are preparing their presentations and a big part of the greek medical community are getting organized to welcome the delegates.

We look forward to welcoming you in Athens

*Irene Mastorakou, MD, MSc (Ultrasound),
PhD, EBCR*
