It has been brought to the Publisher’s attention that there is an error in the following sentence in the abstract of the above article published in Neuropediatrics, Volume 48, Number 2, 2017, page 79 (DOI: 10.1055/s-0036-1593374): Neurological findings included headache in 16 patients (72.7%), epilepsy in 6 patients (27.3%), pseudotumor cerebri in 2 patients (9.1%), and tremor in 1 patient (4.5%).

The correct sentence should actually be “Neurological findings included headache in 16 patients (72.7%), epilepsy in 6 patients (27.3%), pseudotumor cerebri in 2 patients (9.1%), tremor in 2 patients (9.1%), and multiple sclerosis in 1 patient (4.5%).”
