Semin Intervent Radiol 2017;34:303–304

ERRATUM

It was brought to the attention of the Editor-in-Chief and publisher (Thieme) that there was a partial duplicate publication that occurred in the above article in *Seminars in Interventional Radiology* (Volume 28, Issue 2, 2011, pages 222–225; DOI: 10.1055/s-0031-1280669). The portion of the article that was duplicated was the inclusion of a patient in the *Seminars* article who had been previously published as a case report in the journal *Cardiovascular and Interventional Radiology* (Volume 33, Issue 3, 2010, pages 650–653; DOI: 10.1007/s00270-009-9617-4). Due to the review-based nature of manuscripts published in *Seminars* and the scientific nature of publications in *CVIR*, there is no duplication of indexing of this particular patient in the databases of references and abstracts on life sciences and biomedical topics (e.g. MEDLINE and EMBASE). *Seminars* regrets the error.
