Thorac Cardiovasc Surg Rep 2021;10:e30.

This is one of three articles written on request and sponsored by the Swiss Society SGHGC/SSCC (Schweizerische Gesellschaft für Herz- und thorakale Gefäßchirurgie). The paper was decorated with the Special Swiss Young Cardiac Surgeon Award 2020 by the society. It was the aim to give a voice to colleagues afflicted by the COVID-19 (novel coronavirus disease 2019) pandemic regarding their career in cardiovascular surgery. Accordingly, personal experience is reported for which it is futile to seek peer review.

Address for correspondence Markus K. Heinemann, MD, PhD,
Department of Thoracic and Cardiovascular Surgery,
Universitätsmedizin Mainz, Langenbeckstr. 1, Mainz 55131, Germany
(e-mail: mheinema@uni-mainz.de).

The *Thoracic and Cardiovascular Surgeon Reports* (ThCVSReports), therefore, presents to you authentic OPINIONS. Discussion in the form of Letters-to-the-Editor is very welcome because this topic still raises more questions than we have currently answers for.
