Dear Editor,

In 2020, (RBGO 42:26-32,2020) we have published the article "Construct and criterion validity of the postmenopause sexuality questionnaire—PMSQ" (DOI: https://doi.org/10.1055/s-0040-1701461). Complete copies, in English and Portuguese, of the instrument were attached to be published as supplemental material. Nevertheless, the instrument was not published. Since we have been asked to send a copy of the questionnaire to some readers of RBGO, we ask you, if possible, to publish both versions of the instrument in RBGO as supplemental material of the article.
