

EFSUMB Endorsement of Courses

If you hold a short course in your national language why not have it endorsed by EFSUMB and promoted on the EFSUMB website? All you need to do is send the course programme in English to EFSUMB for consideration, with the names of the national faculty, and once approved by the Education and Professional Standards Committee (EPSC) we will begin to promote this. The Endorsed Course logo can then be used in all the course publicity.

The administrative fee for the service is 150 euro and in return we actively promote the course on the EFSUMB website, on Facebook, with tweets and in our emailed newsletter which is sent out once every two months. We will prepare an EFSUMB certificate for participants which can be printed or emailed.

We can also use images from past courses on Facebook to promote the course.
