### Simple and Efficient Syntheses of *N*-Glyoxyloyl-7,7-dimethylnorbornane-(1*S*,2*R*)-oxazolidinone and Its Thio Derivative – Useful Chirons for Diastereoselective Reactions

Iwona Kudyba, Jerzy Raczko, Janusz Jurczak\* *Synthesis* **2004**, 1147.

The compound names for structures **2a**, **2b**, **3**, **5** and **6** were misprinted. The correct names are as follows:

*N*-Crotonoyl-7',7'-dimethylnorbornane-(1'*S*,2'*R*)-oxazolidinone (**2a**)

*N*-Crotonoyl-7',7'-dimethylnorbornane-(1'*S*,2'*R*)-oxazolidinethione (**2b**)

*N*-Glyoxyloyl-7',7'-dimethylnorbornane-(1'*S*,2'*R*)-oxazolidinone (**3**)

*N*-Glyoxyloyl-7',7'-dimethylnorbornane-(1'*S*,2'*R*)-oxazolidinethione Ethyl Acetal (**5**)

*N*-Glyoxyloyl-7',7'-dimethylnorbornane-(1'*S*,2'*R*)-oxazolidinethione Ethyl Hemiacetal (**6**)

In the analytical data for these compounds,  $[\alpha]_D^{20}$  values were misprinted as  $[a]_D^{20}$  values, and NMR data were reported as  $\delta$  values instead of the correct  $\delta$  values.

The editorial office apologizes for these typographical errors.
