Erratum

Synthesis of AZT/d4T Boranophosphates as Anti-HIV Prodrug Candidates

C. Lin, H. Fu,* G. Tu, Y. Zhao* Synthesis 2004, 509.

The structures and names of compounds 8 and 8′ were incorrectly represented as dimethoxytrityl-protected dinucleotide phosphates. The correct structures and names are as follows:

\[
\text{O-(2'}\text{'-deoxythymidin-3'}\text{'-yl)-O'-\text{azido-3'}\text{'-deoxythymidin-5'}\text{'-yl) H-phosphonate (8)}
\]

\[
\text{O-(2'}\text{'-deoxythymidin-3'}\text{'-yl)-O-(2'}\text{',3'}\text{'-didehydro-2'}\text{',3'}\text{'-dideoxythymidin-5'}\text{'-yl) H-phosphonate (8')}\]

The authors apologize for these errors.
