Erratum

Synthesis of AZT/d4T Boranophosphates as Anti-HIV Prodrug Candidates

C. Lin, H. Fu,* G. Tu, Y. Zhao* Synthesis 2004, 509.

The structures and names of compounds 8 and 8′ were incorrectly represented as dimethoxytrityl-protected dinucleotide phosphates. The correct structures and names are as follows:

\[
\begin{align*}
O-&(2'-\text{deoxythymidin-3'-yl})-O'-(3'-\text{azido-3'}-\text{deoxythymidin-5'-yl}) \text{ H-phosphonate (8)} \\
O-&(2'-\text{deoxythymidin-3'-yl})-O-(2',3'-\text{didehydro-2',3'}-\text{dideoxythymidin-5'-yl}) \text{ H-phosphonate (8')} 
\end{align*}
\]

The authors apologize for these errors.
