## Erratum

Chen W, Liu Q, Wang J, Zou J, Meng D, Zuo J, Zhu X, Zhao W. New guaiane, megastigmane and eudesmane-type sesquiterpenoids and anti-inflammatory constituents from *Youngia japonica*. *Planta Med* 2006; 72: 143 – 150

The Introduction contains an incorrect statement. The sentence “To the best of our knowledge, no chemical study has been made on the species *Y. japonica*.” should be revised to “Previous phytochemical investigations of the species reported on sesquiterpene lactones and triterpenoids in aerial parts and the whole plant of *Y. japonica* [1, 2].”
