

ERRATUM

In the Color Plate section of *Seminars in Neurology*, Volume 9, Number 4, pages 401 and 402, Color Plate 8 and Color Plate 11 were inadvertently reversed. The correct legends are as follows:

Color Plate 8. ^{11}C -methionine scan of a prolactinoma before and 3 hours and 9 days after bromocryptine injection. (Courtesy of Dr. Matts Bergstrom.)

Color Plate 11. A PET scan of regional cerebral oxygen utilization in a subject with corticobasal degeneration. Superior frontal, inferior parietal, and superior temporal rCMRO_2 are significantly reduced.

We apologize for any confusion this error may have caused readers.
